Subject: Applications Recently Filed with the Public Utilities Commission by
Pacific Gas & Electric for Rate Increases

Pursuant to an earlier request for information, please be advised that recently Pacific Gas and Electric Company (PG&E) has submitted the following applications with the California Public Utilities Commission (PUC) requesting authority to increase its electric and gas rates:

- a) Application No. 91-04-003 filed April 1, 1991 requesting a \$264.8 million increase in electric rates to cover forecasted expenses as estimated by PG&E. This would approximate a three to four percent increase. If approved the rate increase would be effective January 1, 1992.

This application also includes a request for a \$10.2 million increase of its gas rates.

- b) Application No. 91-05-016 filed ~~or~~ May 8, 1990 (please note that in checking with the PUC and PG&E, this date should be May 8, 1991) requesting rate adjustments that would increase electric revenues by approximately \$36,986,000 and gas revenues by approximately \$10,595,000 to become effective January 1, 1992, a rate increase of less than 1%. PG&E indicates that this change in revenue is needed to cover a projected increase in cost of capital due to projected higher interest rates and changes in economic, regulatory, and business risks for PG&E.

Copies of the subject notices are attached.
